

Kartini Day 2024

On Kartini Day, we celebrate our progress and honor the many remarkable women who have shaped Indonesia's history. Raden Ajeng Kartini was one of the key figures widely recognized in this movement with her dedication to women's rights and education. Equally important were Dewi Sartika, HR Rasuna Said, Cut Nyak Dien, Martha Christina Tiahahu, Roehanna Koeddoes, Siti Aisyah, and many other brilliant Indonesian women who have had a significant impact on the nation over the years. These women, each in her own time and place, demonstrated incredible courage and leadership.

At Makarim & Taira S., their influence is clear. We are proud of the fact that many women hold key positions in our firm, showing that our commitment to excellence and leadership continues. Their success reflects the lasting influence of these national heroes.

Moving forward, we are committed to maintaining a supportive work environment where all our lawyers can excel, driven by the legacy of these remarkable women.
