

UNS Students Learn about being Work-Ready and World-Ready Lawyers

Last 18 September 2019, over 60 students from Universitas Sebelas Maret, Solo went to to the Makarim & Taira S. Office as part of their Study Visit program at the UNS Faculty of Law.

Our partner [Lina Amran](#), together with our senior associate [Dirgantara Adi Nugroho](#), shared real advice on how to transition from being a law student to becoming legal professionals. They also imparted their own experiences and insights on the skills, abilities, and the right attitude needed to thrive in this increasingly competitive industry. They also received important lessons from M&T founder [Nono Makarim](#) during their visit.

We are happy to welcome aspiring lawyers and to share our know-hows so we can continue to inspire and, hopefully, groom them to become competent, ethical, and successful professionals.
