

Project Financing Workshop with PAMA

Last 14 May 2018 one of our Partners, Frederick Simanjuntak, together with associates Agil Ariananto and Benedicta Frizka, were invited as speakers by PT Pamapersada Nusantara (PAMA – a member of ASTRA group) for its Project Financing Workshop. Legal and business officers within the ASTRA heavy equipment, mining, and energy group learned about the core principles, crucial factors, and techniques in assessing and structuring project financed transactions. This workshop is part of PAMA's Legal Education Program for its employees and employees of certain companies within the group.
